

Big Lodo no-Box

The screen for open plan rooms, without box.

Like the standard model, this screen has a particularly solid tube-motor system and a very high resilience to bending, which ensures perfect flatness of the fabric over the years.

The compactness of the screen in relation to the overall dimension is emphasized by the lack of the box, making it ideal for small environments. The side brackets make mounting possible to the ceiling, on the wall, or even leaning on lateral supports.
