

Fashion

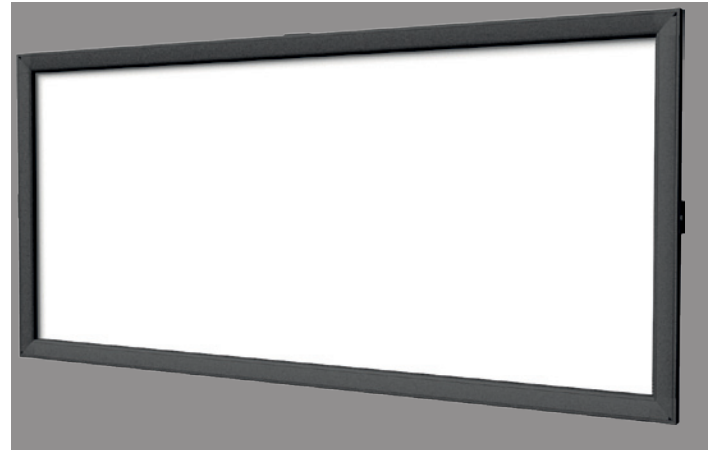

Aesthetics and details.

The inward rounded borders can be painted matt black or even come with black velvet finish in order to absorb any possible overlapping of the projected image.

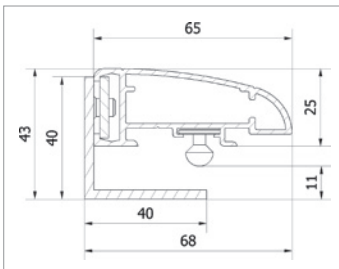

The nylon corners are finished in the same way as the rest of the frame giving it a sense of continuity. The perimeter groove and the accessories provided make it possible to fix the screen to the wall or to let it hang from the ceiling.

Wide range of fabrics: standard white or retro-projection, Microperforated or Grey High Contrast up to the very bright 3D Pro Active for projections both in active 2D and in 3D also in daylight.

The fabrics are trimmed with a PVC border which disappears behind the frame giving the surface a remarkable flatness.

Technical details

Screen characteristics

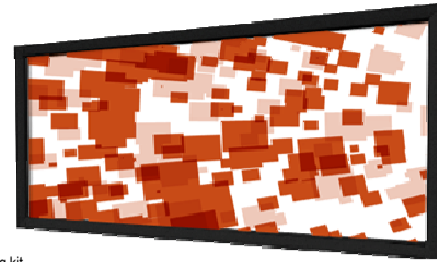

- stylish rounded borders
- velvety frame on request
- wide range of fabrics with black PVC border
- T-stands for floor application on request
- customized sizes

Available fabrics

- Diamond
- Microperforated
- Grey High Contrast
- Ambra retro-projection
- 3D Pro Active (up to 200 cm height)
