

Inceiling Biformat

Versatility's last frontier.

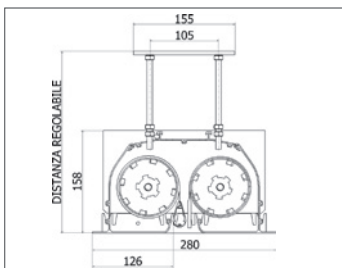

This screen has the same flexible operative characteristics as WAVE BI-FORMAT plus one more, the possibility of completely disappearing in the ceiling when not in use.

It offers a wide range of applications thanks to the fabrics which can be activated separately. It discreetly fits any kind of environment and can mount projection surfaces, blinding curtains, and digital print fabrics representing artistic themes or company logos.

The easy-cut system eases the cutting and mounting operations in the false ceilings.

Technical details

Screen characteristics

- totally hidden screen when not in use
- two independent projection fabrics which can be interfaced with home automation control systems
- easy-cut mounting system
- rollers placed horizontally
- custom features
- white counterweight
