

# Lodo no-Box

## The large-sized professional screen without box.

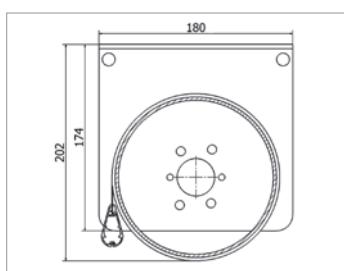

The structure is entirely made of thick aluminium and steel.

The side brackets make mounting possible to the ceiling, on the wall, or even leaning on lateral supports. In order to comply with TUV safety regulations, chains are provided for an additional safety anchorage.

It mounts front, retro-projection or sound-transferring perforated fabrics of all sizes, with or without black borders. The packaging is strengthened by steel bars which reinforce the cardboard box.

## Technical details

## Screen characteristics

- 100% aluminium mechanics
- wide range of fabrics and sizes
- black borders on request
- customized sizes
- safety anchor chains
- steel reinforced cardboard packaging

## Available fabrics

- White Ice
- Home Vision
- Perforated sound-transferring
- Coral retro-projection
