

Lodo Tensioned

The large-sized professional screen with tensioned fabric.

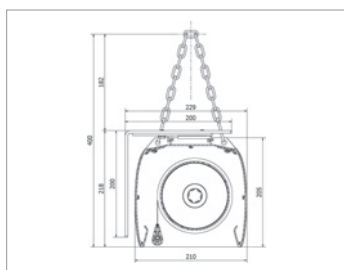

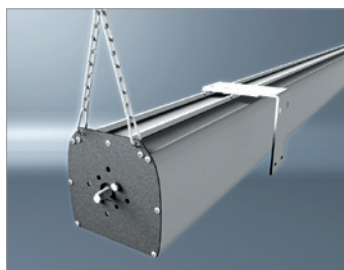

The lateral tensioning of the fabric ensures perfect flatness of the surface and the borders over the years.

The resilience of the structure made entirely of aluminium and the wide choice of the available fabrics, also customized, remain unaltered.

It can come with standard motor or with inbuilt radio control which allows operating and adjusting the stop buffers by remote control.

The packaging is reinforced by steel bars.

Technical details

Screen characteristics

- standard tensioning of the fabric
- 100% aluminium mechanics
- matt black box on request
- wide range of fabrics and sizes
- quick&safe mounting system
- customized sizes
- safety anchor chains
- steel reinforced cardboard packaging
- 8 cm side borders

Available fabrics

- White Ice
- Home Vision
- Perforated sound-transferring
- Coral retro-projection
